Lane Closures on U.S. 30 between East End Avenue and State Street for Drainage Improvements

CHICAGO – The Illinois Department of Transportation (IDOT) announced that daytime lane closures will take place on U.S. 30 between East End Avenue and State Street, in Chicago Heights, for a drainage improvement project, beginning, weather permitting, Monday, July 24.

In order to complete the work, intermittent, daily lane closures will be necessary on U.S. 30 from East End Avenue to State Street while construction activities are taking place.

The scope of the project consists of cleaning, repairing and lining the existing drainage structures to improve the drainage system along U.S. 30. The overall project is expected to be completed in Fall 2017.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
